

BLANK DUCT PLUGS

Mechanical duct plugs for sealing vacant conduits & innerducts

KEY FEATURES

- All plastic construction – corrosion proof
- Water and air resistant
- Simple installation
- Ideal for manholes and building entrances

Loop Nut

Kwikie[™]
Blank Duct Plugs

Three styles of conduit duct plugs to effectively seal a variety of empty conduits

Kwikie[™] Blank Duct Plugs are manufactured from a combination of high-impact plastic components and pliable, yet durable, gaskets. These mechanical duct plugs prevent the incursion of water and sedimentation into costly duct banks and raceway systems while also confining potential problems like dangerous vapors to their source.

Each blank plug features a rope-tie to secure pull-rope to the plug's back-compression plate. By attaching the rope to the back-compression plate, excess slack is readily at-hand for future use. Easily installed, or removed, they provide a simple and highly effective sealing solution.

Many of our sizes are JackMoon[®] certified cross-referenced for a seamless part number conversion.
